

Course Syllabus

PG160 ORIENTATION

COURSE INFORMATION

Course Title: PURDUE GLOBAL ORIENTATION

Credit Hours: 0

Prerequisites: None

COURSE DESCRIPTION

This course provides the perfect opportunity to learn more about Purdue Global as an institution, our resources, and our community. You can practice the skills and use the tools you need for online learning. This course will prepare you for your upcoming term and beyond and hopefully create a sense of belonging. We warmly welcome you as you take these next steps in your academic and career journey!

LEARNING OUTCOMES

By the end of this course, you should know how to:

- Navigate the classroom and student portal.
- Access academic resources.
- Locate and participate in live and recorded seminars.
- Submit practice assignments and activities.
- Connect to supportive people and resources.
- Identify opportunities to engage in university life.

COURSE MATERIALS

Not applicable for Orientation.

For your **future courses** with eBooks or digital books, go to the Table of Contents and click the Digital Book link. If your course has a physical textbook that you have not received, please contact your Student Advisor.

TEXTBOOK INFORMATION

Not applicable for Orientation.

SOFTWARE REQUIREMENTS

No additional technology requirements beyond those in the Purdue Global Catalog.

GRADING CRITERIA/COURSE EVALUATION

This course is your opportunity to practice for your upcoming term; therefore, you will not receive an official grade. The Seminar Confirmation Quiz and Practice Activities (Discussion Board Post and Writing Assignment) are attached to points but will not affect your GPA. The points are aligned with PG's universal point system and are included for your knowledge.

Completion of the Seminar Confirmation Quiz is required by many programs and is expected after attending a live seminar or viewing a recording. The Practice Activities will help you become more familiar with these activities in your future courses.

PURDUE GLOBAL GRADING SCALE

Grade	Points	Percent	Grade Point
A	930-1000	93-100%	4.0
A-	900-929	90-92%	3.7
B+	870-899	87-89%	3.3
B	830-869	83-86%	3.0
B-	800-829	80-82%	2.7
C+	770-799	77-79%	2.3
C	730-769	73-76%	2.0

C-	700-729	70-72%	1.7
D+	670-699	67-69%	1.3
D	600-669	60-66%	1.0
F	0-599	0-59%	0.0

INSTRUCTOR'S GRADING CRITERIA/TIMETABLE

In this course, the instructor will grade all Discussion Board Posts and Writing Assignments within 24 hours when submitted during the week or by the next business day if submitted during the weekend or a holiday. The Seminar Confirmation Quiz is graded automatically upon submission.

POLICIES

Students who wish to review current policies (academic appeals, attendance/tardiness, etc.) should refer to the [Policy Information](#) in the current Purdue Global Catalog.

As a student, you work hard to earn your degree. Protect the integrity of your work. Do not share your assignments, papers, quizzes, tests, etc. with other students. Do not directly or indirectly share your work by posting it to a third-party website. Do not make use of another student's work in any academic activity. Unless specifically instructed to work in groups, do not collaborate with your classmates on assignments or tests. These actions violate the Purdue Global [Code of Student Conduct](#) policy and, as a result, carry consequences. In some cases, students who are found in violation of these policies are dismissed from the University. You can also review the Writing with Integrity document located in Academic Tools in your course.

If you have questions about these policies, please review these policies in the catalog and contact your instructor.

LATE POLICY (for future courses)

You are expected to submit all assignments and projects by the end of the Unit. Students may turn in late work up to 2 weeks after the due date. After that, a zero will be assigned for each assignment. Ten percent of the assignment value will be deducted after the assignment is graded for each week that an assignment is late. For example, if your assignment worth 100 points is due on Tuesday and you submit it on Wednesday, 10 points

will be deducted after it is graded. If you submit it 2 weeks late, there will be a reduction of 20% of the original assignment value after the assignment is graded.

All late work must be submitted by Sunday of the last unit. No late work will be accepted after this without an [Incomplete Grade](#) approval.

Certain course activities may not be eligible for late submission. These include, but are not limited to, discussions, Seminars, quizzes, labs, exams, and clinical activities.

We know that extenuating circumstances can interfere with the timely submission of your work. Be sure to tell your professor and your Student Advisor right away if you are going to be late with a submission.

Your professor will determine whether an exception to the Purdue Global Late Policy is appropriate. They may also require you to provide documentation of the reason. If your professor determines that an extension is warranted, they will provide you with the expectations for your submission or assignment in writing.

Extenuating circumstances include, but are not limited to, personal/family member hospitalization, family member death, a severe weather event, a natural disaster, and an active military assignment that prevents internet connectivity. Computer-related issues, Internet connectivity, and account blocks are generally not considered extenuating circumstances.

ACADEMIC ACCOMMODATIONS

If there are any academic accommodations you feel would be helpful to you in your classes, please do not hesitate to contact Student Accessibility Services (SAS) for assistance. **NOTE:** *The contact information below is to request academic accommodations only and should not be used to contact your instructor. You can contact your instructor through the Brightspace classroom.*

Tel: 317-208-1686

Email: sas@purdueglobal.edu

Fax: 866-422-4773 (Toll Free)

TTY: TTY users may dial 711 from their TTY phone at no charge to be connected with a Telecommunications Relay Services (TRS) operator who will assist with the call.

Accommodations cannot be granted retroactively, and you are required to submit supporting documentation needed to process the request.

ASSIGNMENTS/ACTIVITIES

In this course, the Practice Activities (Discussion Board Post and Writing Assignment) will

be accessible to you as soon as you are enrolled in the course. You can complete them at any time during the orientation period. However, we recommend that all practice activities be completed by “Preview Sunday” so that you may then focus on your academic coursework.

You can find a description of all activities under each unit in this course. For grading specifics, consult the Grading Criteria section above and the appropriate rubrics in the Course Resources tab within the course content.

SEMINARS

The live Seminar is your opportunity to engage with your instructor and peers and resolve course questions. In this course, you will learn how to navigate the classroom, student portal, and the resources available in the PG Campus. Your instructor will explain the PG160 Orientation course requirements in detail, and you will have a chance to ask questions. Your participation allows you to practice accessing and engaging in a Zoom session. **The live Seminar time (Eastern Time Zone), date options, and Zoom link location for this course can be found in the Start Here section on the course homepage.**

You may view the recording if you cannot attend the live seminar. To access both the live and recorded seminars, click More Tools > Seminar > Upcoming Meetings or Cloud Recordings in the top navigation bar of the course.

After live attendance or watching the seminar recording, you must complete the Seminar Confirmation Quiz.

DISCUSSION BOARDS

Discussion Boards are essential to your learning; they allow you to interact with your classmates and instructor asynchronously. **In this course**, you will practice participating in a typical Discussion Board. You will post an initial response and are encouraged but not required to begin connecting to your classmates by responding to their posts. In your upcoming classes, you will need to respond to your classmates each week.

Please find the instructions and rubric for the Post under the Discussions tab in the top navigation bar and in Unit 2 Practice Activity: Connect on Discussion Board in the course content.

RUBRICS

A rubric is a tool your instructor utilizes to determine your performance on assessments (assignments, discussions, Seminars, etc.) throughout your course. The rubric lists the criteria for the assessment on which you will be graded. You should follow the rubric to understand what is expected of you in each assignment/activity. **Rubrics for all assignments/activities in this course can be found in the Course Resources tab within the course content.**

TUTORING

Tutoring and many other resources are available in the Academic Success Center section of the **My Studies** tab on the **Purdue Global Campus homepage**.

NETIQUETTE

Interactions in an online classroom can be in written form, audio, or video. Your comfort level with expressing ideas and feelings in writing will add to your success in an online course. The ability to write is necessary, but you also need to understand what is considered appropriate when communicating online.

The word "netiquette" is short for "Internet etiquette." Rules of netiquette have grown organically with the growth of the Internet to help users act responsibly when they access or transmit information online. As a student, you should be aware of the common rules of netiquette for the web and employ a communication style that follows these guidelines.

- Wait to respond to a message that upsets you, and be careful of what you say and how you say it.
- Be considerate. Rude or threatening language, inflammatory assertions (often called "flaming"), personal attacks, and other inappropriate communication will not be tolerated.
- Never post a message in all capital letters — it comes across to the reader as SHOUTING! Use boldface and italics sparingly, as they can denote sarcasm.
- Keep messages short and to the point.
- Always practice good grammar, punctuation, and composition; this shows that you have taken the time to craft your response and respect your classmates' work.
- Remember that Discussion Boards are meant to be constructive exchanges, and it is important to respect those views that differ from yours.
- Be respectful and treat everyone as you would want to be treated yourself.
- Use spell check before sending a written message.

Using a webcam in an online meeting room requires thought and consideration for the netiquette environment. Keep your surroundings free of clutter and distraction. Do not allow others in your setting to enter the webcam view. Be sure your attire and background are appropriate for a classroom setting. If in doubt, turn off your camera. When using a microphone, be mindful of your mute button - stay on mute until it is an appropriate time to speak - then enable your mute button again when you have finished sharing. Also, be mindful of how you reply to differing opinions or course content you may disagree with. Feel free to express your views and ask questions calmly and respectfully.

You should also review and refer to the [Responsible Use of University Technology](#) section in the most recent Purdue Global Catalog.
